Answers to many questions are missing. Reflection on the meaning of the doctrine of just war has shifted in recent years. So Pope Francis always speaks of non-violence in connection with the protection of human rights. In general, human rights often seem to be understood as a Western civilisation project that is not accepted by many countries. Reflection and processing of the topic of just war and ethics of conflict escalation must be further deepened. A pastoral letter from the Pope to the military should therefore also be requested from the Holy See for the 40th anniversary of Spirituali militum curae in 2026.</p> <p>A dialogue with Pax Christi at different levels, internationally and nationally, is also suggested. Some groups are more pacifist, others also seek dialogue with a view to the possibility of a just defence. Positions should be clarified and discussed with a view to a possible common basis for dialogue, especially the question of human rights and their validity in the Western world and their rejection by some other cultures. General Comments

Each AMI nation willing to do so should be assigned one (or more) Stations

Lead nation for any Station may elect to translate into their own language (including the Our Father, Hail Mary and Glory Be at the end of the Station)

In each Station, the text in **bold** should be read before the gospel extract *in italics*, as this captures the essence of the Station (and thus the attention of the listener)

Requirement for sound quality to be of an acceptable (and uniform) standard throughout all Stations
